HOCHTIEF again top employer in German real estate industry

1st place in ranking by Immobilien-Zeitung - voted for by 574 students on real estate industry programs

Students from a number of German universities have voted for HOCHTIEF as the top real estate industry employer for the second time in a row. This was found by a survey by Immobilien-Zeitung to be published on July 22, 2010. The Group already came in first place last year and has now expanded its lead even further.

The list was voted for by 574 students on programs relating to the real estate industry who will be graduating in the next four semesters. In the questionnaires, students indicated their dream employer. In particular, HOCHTIEF scored well thanks to its excellent image, the wide range of the activities on offer, the large number of locations (including those abroad) and career prospects. As an international construction company, the Group offers its employees the opportunity to work in a variety of areas and to take on interdisciplinary positions as well - a clear advantage in the opinion of future candidates. "We are delighted to have defended our title as the industry's top employer and will continue to pursue our sustainable HR policy," said Martina Steffen, Head of Corporate Center Human Resources.
