## Turner Construction Company Awarded New San Diego Unified School District Project

May 1, 2025 – Turner Construction Company is proud to announce its selection for the **San Diego Unified School District's Mann Middle School** Whole Site Modernization project, continuing its strong partnership with the district and commitment to transforming educational environments across the region.

The project will be delivered in phases and includes comprehensive improvements to the [Mann Middle School](#) campus. The modernization effort, designed by [Sproutte+Watson Architecture and Planning](#), includes the renovation of existing buildings 300, 400, and the 500 building (Auditorium). A portion of Building 200 will be demolished, preserving the existing library, and a new expansion will be constructed to accommodate updated restrooms and support spaces.

Additionally, the scope of work features the demolition of the existing physical education building and the construction of a new PE locker building and gymnasium. The new PE facilities will include accessible parking and improved access from Trojan Avenue.

Modernization efforts will also address existing classrooms, special education classrooms, the auditorium, and food service facilities. Upgrades will include site accessibility improvements, enhancements to technology and communication infrastructure, and broader site work enhancements to support student learning and campus functionality.

Construction is scheduled to begin early 2026 and is expected to be completed by early 2029.

"We are honored to be entrusted once again by the San Diego Unified School District," said **Fernando Delgado**, K-14 Program Manager at Turner. "Our team is excited to deliver a project that will have a lasting impact on students and the surrounding community. This effort exemplifies our commitment to building environments where learning can thrive."
